

A New Path To Homeownership

MOBILE HOME INFILL PROGRAM (MHIP)

May 6, 2026 | In-Person Tours & Info Sessions

Up to 40 New Homes in the NEK!

To help address housing affordability and development challenges, exacerbated by recent flooding, the Vermont State Housing Authority, in partnership with the State of Vermont, launched MHIP (Mobile Home Infill Program). Through this program, participating mobile home park owners and manufactured home communities are improving lots and fast-tracking the placement of affordably priced homes, expanding opportunities for stability, and attainable homeownership for Vermonters.

Join the NEK Collaborative and partners at one or more locations to tour homes and learn about eligibility, the homebuying process, favorable loan terms, down payment assistance, reduced mortgage rates, and closing cost discounts.
